POST TEST

1. Dari algoritma sorting yang telah kalian implementasikan pada jurnal, manakah yang lebih efisien? Jelaskan alasanmu.
2. Bandingkan efisiensi antara Binary Search dan Linear Search. Dalam kondisi seperti apa masing-masing algoritma lebih unggul dan mengapa?.

_____

1. From the sorting algorithms you've implemented in the journal, which one do you think is the most efficient? Explain why you think so.
2. Compare the efficiency between Binary Search and Linear Search. Under what conditions does each algorithm perform better, and why?
